

SACHDEVA PUBLIC SCHOOL, PITAM PURA

No.:- SPS/Admn.1/15/2015

Dated:- 11th August, 2015

PARENTAL CIRCULAR - LKG to II

Dear Parent,

Keeping in view the likely spread of various diseases like dengue, malaria, typhoid etc. in monsoon season the school is taking all precautions to see that water is not collected inside and near the school. Kindly note the following as precautionary measures :-

1. Although, the school ensures total fumigation on daily basis yet it is advised that the students wear full sleeves shirt and blue trousers/jeans to ensure that they are well covered and protected.
2. Do not send the child to school in case the child is unwell as most of these diseases are highly contagious and spread by contact.
3. Please ensure that children wash their hands properly with soap before consuming food.

With warm regards,

Yours sincerely,

MONA RASTOGI
